

MOTORCRAFT® CALIPERS

OE Caliper Features:

- Provides OE braking performance, designed specifically for each vehicle platform
- Excellent coverage, providing applications for most Ford, Lincoln and Mercury vehicles
- Available loaded or unloaded
- Pads, mounting pins and all hardware included on Loaded Calipers, helps make ordering and installation easier
- Tested on the vehicle, in real world conditions
- On-vehicle testing allows calipers, pads and rotors to be fine-tuned and balanced for consistent performance
- Ready to install out of the box
- Backed by Ford Motor Company

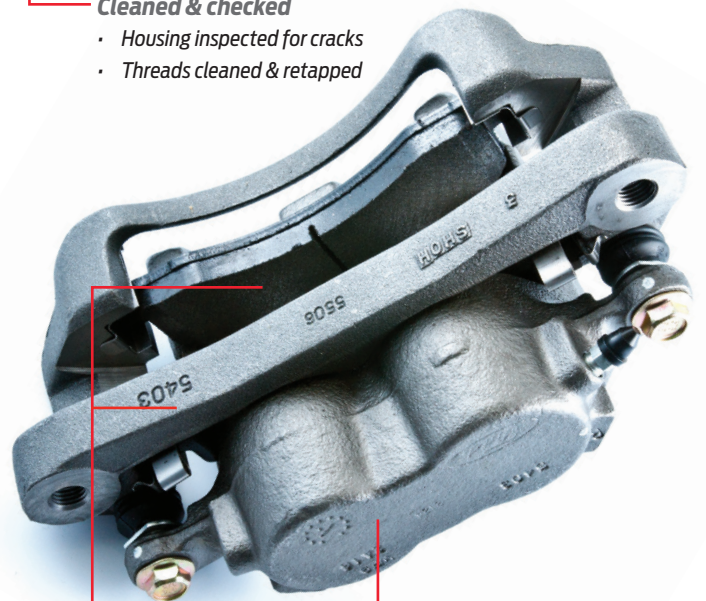

Reman Caliper Features:

- Motorcraft® remanufactured calipers endure stringent OE-type testing
 - Seals and boots tested for durability and leaks
 - Piston tested for abrasion resistance
 - 100% are tested for high and low pressure leaks
- Cores are cleaned and checked for cracks or fatigue
- Where applicable, mounting threads are cleaned and re-tapped
- Complete with all new dust seals, O-rings, boots and pistons
- Available loaded or unloaded
- Loaded calipers are pre-lubricated and include pads, mounting pins and all hardware
- Loaded calipers also available with Motorcraft® Super Duty pads
- Ready to install out of the box
