

MOTORCRAFT®

HUB AND BEARING ASSEMBLY (NHUB)

NHUB: Crossover/SUV/Truck Applications

Newly released hub and bearing assemblies are competitively priced with national competitors and targeted for older model vehicles. For easy identification, these new parts are designated with an N-prefix.

The Motorcraft Advantage

Expanded Coverage: With this release, Motorcraft now offers full Hub and Bearing Assembly coverage for Crossover, SUV and Truck lines. Particularly important is the coverage for high mileage, late life-cycle vehicles.

Competitively priced – These are **priced right** to address the needs of various customers' vehicles and budgets.

Warranty: 2 years unlimited mileage, with NO commercial exceptions

Motorcraft Hub Features

- Lubed-for-life sealed assemblies help prevent water, mud, slush, and silt from getting inside
- Inner and outer raceways designed for long service life
- Sensor ring and sensor wires included to help ensure accurate ABS controller signals
- Micro-ground hub-to-rotor surface helps minimize lateral runout and pedal vibration
- Tapered roller bearings are used in high load applications
- ABS components and bearing preload 100% tested

Excellent performance

- Premium seals help provide excellent sealing performance
- Inner and outer raceways designed for long service life

ABS sensing

- Sensor ring and sensor wires included to help ensure accurate ABS controller signals

Precision forgings

- Lubed-for-life sealed assemblies help prevent water, mud, slush, and silt from getting inside
- Micro-ground hub-to-rotor surface helps minimize pedal vibration
- Tapered roller bearings used in high-load applications
