# O<sub>2</sub> SENSOR PART CONSOLIDATION

## New O<sub>2</sub> Sensor replaces 24 previous SKUs

This new replacement Motorcraft® O<sub>2</sub> Sensor is designed to service hundreds of Ford, Lincoln and Mercury applications from the early '90s through 2011 with a single part number.

## New O<sub>2</sub> Sensor Features

- Consolidated to a single wire length with a no-key connector
- Common harness and connector meet stringent Ford Engineering specifications
- Sensor is the same as it was when the vehicle was produced
- Consistent performance and strict tolerances help minimize false “check engine” lights and repeat repairs
- One part number covers hundreds of applications

## Tested Tough

- Mechanical testing replicates typical handling and installation procedures
- Electrical testing measures sensor outputs in a wide range of simulated operating conditions
- Functional testing helps ensure sensor performs as designed and sends accurate signals to the ECM
- Durability testing helps ensure the sensor meets life cycle specifications
- Meets or exceeds Ford OE performance requirements

**Reduce the number of O<sub>2</sub> sensor part numbers in your inventory**

*Ready to install,  
pre-lubricated with  
anti-seize compound*

*Protective sleeve helps shield  
wire leads from heat*

*No-key connector  
allows coverage for  
multiple applications*

**MOTORCRAFT®  
WARRANTY**

**UNLIMITED  
MILEAGE**  
INCLUDES LABOR

**2 YEARS**

Limited labor costs. See seller for warranty details.
