

# MOTORCRAFT® STEERING GEAR

## Motorcraft® parts specifically for Ford and Lincoln vehicles

- All replaced components are Original Equipment, the exact same as were originally used
- The housing is bead blasted to remove all rust and corrosion
- Motorcraft® remanufactured power steering gears meet Ford performance and durability standards
- New sector shafts are installed
- As each gear box is assembled and tested, a serial number is assigned and etched
- During disassembly, rubber and plastic components are discarded
- The housing assembly, valve assembly, and worm shaft are thoroughly cleaned
- Motorcraft® remanufactured steering gears are the ONLY remanufactured steering gears eligible for warranty replacement on new vehicles
- Each gear box core is thoroughly examined to ensure only the best quality, structurally sound cores make it to the remanufacturing line
- New seals and bearings (appropriately sized) are installed. A careful ball sizing ensures correct steering effort and a reduction of steering wheel play which leads to fewer comebacks
