

MOTORCRAFT®

WIRING PIGTAIL KITS AND BATTERY CABLES

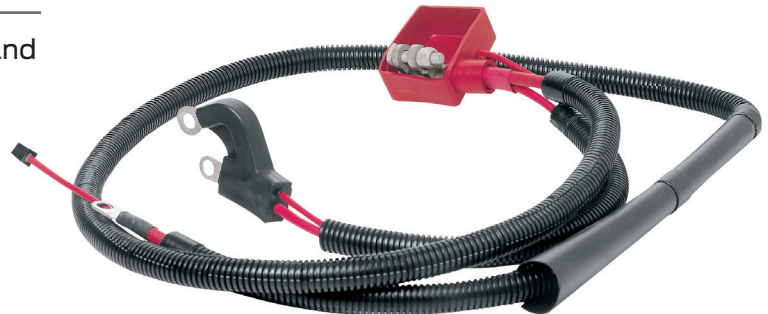

Pigtail Kits

- Motorcraft® kits are the only pigtails recommended by Ford Motor Company
- Each pigtail kit includes everything needed to make a complete repair including:
 - Wiring pigtail
 - Heat shrink tubing
 - Butt splices
- All include the original equipment connector
- Motorcraft® line has nearly 900 pigtail kits that meet strict Ford Engineering specifications and are designed to repair factory harnesses with factory componentry

Battery Cables

- Factory design components are formed for sure fit and easy installation
- Thermal end corrosion resistant copper alloy
- Factory crimped and shrink-wrapped for protection from extreme underhood conditions
- Auxiliary wiring included where applicable
